

Did'ja Know?

Sometimes when a person struggles with something, they call it their "demon." This means that they need God's and other people's help to be healed from their suffering.

Many came to Jesus for healing. Jesus never sent them away, but instead worked with them to make them well again. Color the picture below.

Season of Epiphany

February 7, 2021
Mark 1

Jesus spent his time teaching and healing. One time, a man who was controlled by an unclean spirit approached Jesus and began to say mean things.

Jesus wasn't afraid. He just told the unclean spirit to leave the man. And it did! People couldn't believe what they saw and heard. This Jesus must be very important.

Jesus continued to heal all the people that came to him for help. He cured a woman's fever, and he cast out many, many demons.

Once, a man came to Jesus who had leprosy. Leprosy was a serious skin disease. It made people not want to get too close. The man asked if Jesus would heal him. Of course he would! Jesus asked him to keep it a secret, though. But the man was too excited to keep it to himself. He told everyone.

Jesus couldn't get much privacy after that. But he made sure to find time to rest and recharge. After all, everyone needs rest!

Great Big Word

Healing

Not just making a person well, but also accepting them, no matter what.

Fun Stuff

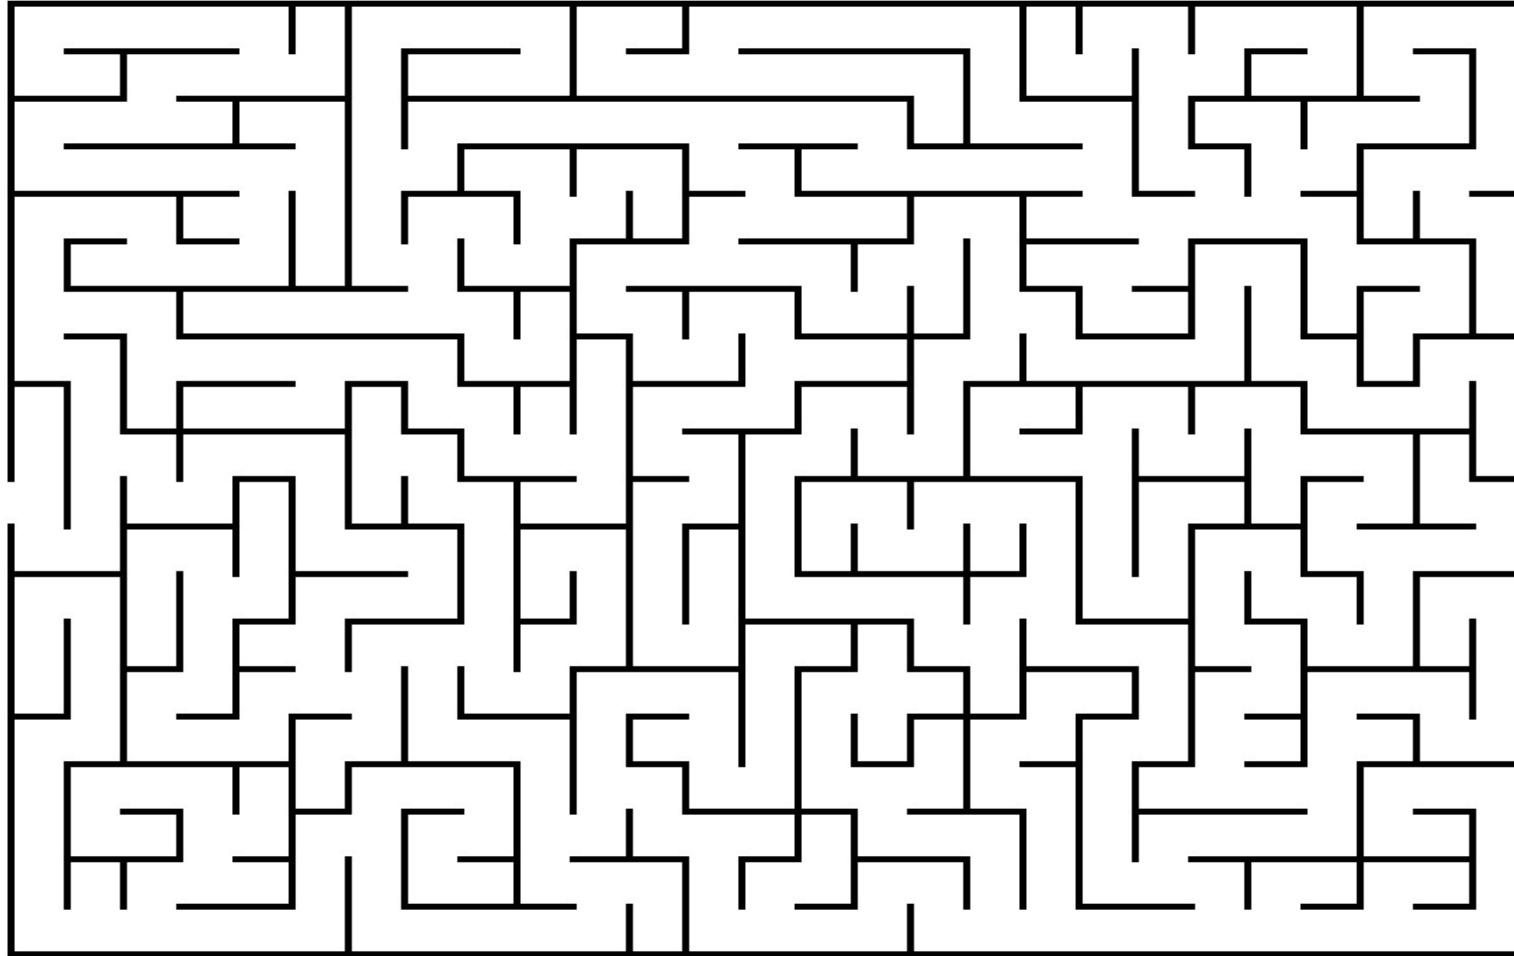

Maze Time!

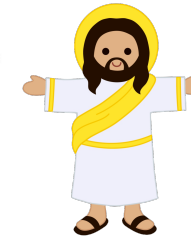

Help the crowds of people who need healing find Jesus.

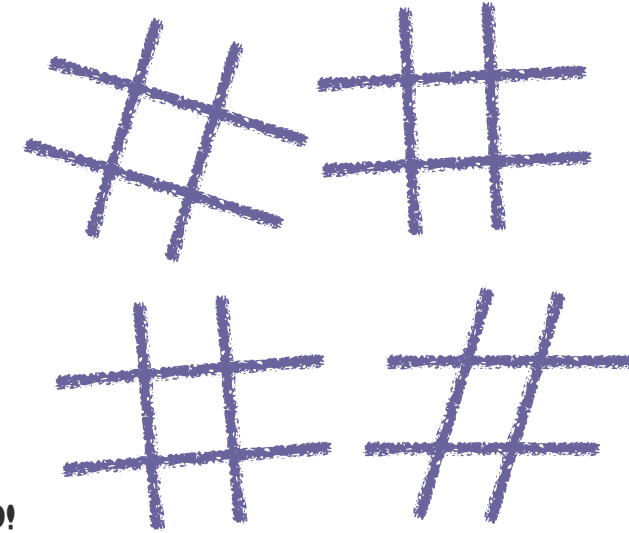

HELP US, JESUS!

WILL DO!

TICTACTOE

Well
Gee
Whiz!

Doctors, nurses and other hospital staff help sick people get better today. And veterinarians help sick animals like puppies and kitties get better. Lots of people are today's healers!

Try It At Home

Check with your parents or guardians whether you have first-aid supplies like bandages and antibiotic cream on hand. It's nice to have these things when someone gets hurt!
