

Some seeds are small, but others are super-duper tiny like mustard seeds. What's your favorite seed?

Color That Stuff

The interesting thing about seeds is that they grow up into many different types of plants. Color the pictures below and draw in your own favorite plants.

Season of Pentecost

June 13, 2021
Mark 4

Sometimes when Jesus taught the crowds, he spoke in parables. Parables are stories about things that are used to explain a situation in real life.

One parable was about a person who was planting seeds. Some of the seeds landed on good soil, and they grew into fruitful plants. But the seeds that landed on rocks were washed away. Some seeds fell in thorns, and they didn't grow over all the thick weeds.

Jesus explained that the seed was the word of God. The different places the seeds landed were different people and how they heard God's word. When God's word moves us, we are like the seeds that landed on good soil.

We can grow and be fruitful, too!

Great Big Word

Following Jesus

Learning to live life in the ways Jesus has taught us.

Fun Stuff

Spot the Stuff

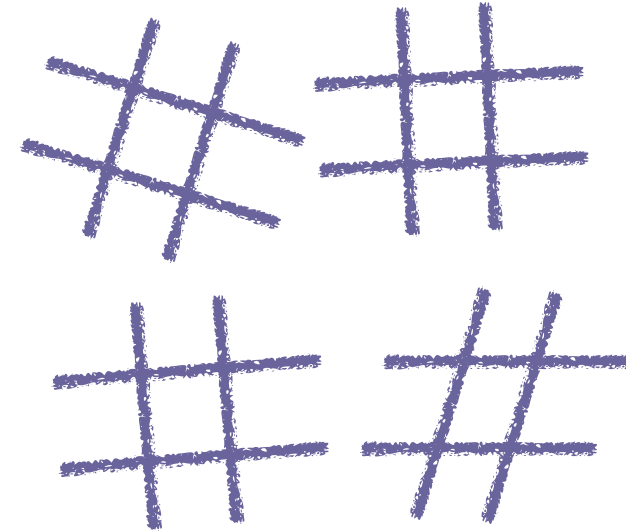

Spot the different things you'd see on a farm. Use the list to the right. Then, add in a few farm-related things of your own to the picture!

I SPY ...

1. Gas-powered equipment.
2. Silo
3. Livestock
4. Non-livestock animals
5. Trough or place to feed animals.
6. Scarecrow
7. Barn
8. Pond
9. Fencing
10. Haystack

TICTACTOE

Memory Verse

"[The Kingdom of God] is like a mustard seed, which, when sown upon the ground, is the smallest of all the seeds on earth. . ."

- Mark 4:31

special Task Force

Begin planning for a garden this year. What vegetables or plants would you like to grow?
